Thank You!

Thank you to our College of Medicine faculty members who served on the **College Review Committee**. The committee undertook the significant task of reviewing 38 departmental recommendations for renewal of probation, tenure, and promotion, and 51 salary review cases. They dedicated countless hours and considerable effort towards these crucial decisions, and we are deeply grateful for their hard work in supporting their fellow faculty members.

Thank you to the College of Medicine **award adjudicators** for volunteering their time in service of recognizing their fellow members. Adjudicators were tasked with making difficult decisions and did so with a high level of professionalism and care.

Thank you to all **award nominators and supporters** for taking the time to submit a nomination for deserving colleagues. Nominees always deem it a significant form of recognition in itself.

Thank you to the **Faculty and Staff Awards Committee** who gave advice on the new awards and processes.
